For the Northern District of California

1 A bench trial between Rambus and Samsung on various claims and defenses is scheduled to
2 begin on September 22, 2008. At a pretrial conference on September 16, 2008, Rambus and
3 Samsung agreed to drop certain issues from the case with prejudice. Their statements are attached to
4 this order as Exhibits A (Samsung's pleading) and B (Rambus's responsive pleading).

5 The court accepts the parties' stipulation to narrow the issues in this case. The court orders
6 that Samsung's claims and defenses based on Rambus's JEDEC conduct, the conduct of Neil
7 Steinberg, and representations made by Rambus in connection with the 1994 RDRAM technology
8 and patent licensing agreements are dismissed with prejudice. The court orders that Rambus's
9 defenses to Samsung's claims – release, laches, statute of limitations, and *Noerr-Pennington* – are
10 dismissed as moot to the extent those defenses are based on the issues Samsung has agreed to
11 remove from the case.
